INDEX

WINGS

Philosophy

This collection is thoughtfully designed with a unique wing-inspired shape, ensuring both a comfortable grip and protection against burns. In the plates, this feature is seamlessly integrated around the perimeter, distinctly separating the handling area from the food-holding surface. Bowls, pans, cups, and accessories stand out with a signature half-cylinder element on both sides. This versatile design not only prevents burns but also serves as a convenient support for cutlery and as a stable base for complementary pieces.
